The Keene Township Board adopted amendments to the zoning ordinance to add language to allow and regulate wind energy systems. A new section will be added to Article XV Section 15.46. This new section will describe definitions, setbacks, size, review and procedures for home or farm systems and large commercial systems. Certain types are permitted with a zoning permit and the larger systems will require a special use permit. Section 15.15 Height Regulations will be amended to coordinate with the new wind energy section. These uses will also be added to the zoning districts sections.

The adopted ordinance amendments can be viewed in the Township Hall notice box or on the Township website at [www.keenetownship.org](http://www.keenetownship.org). The amendments will become effective 7 days after publication.
